To work in a professional and challenging environment where I am able to utilize my skill and also provide an opportunity to learn where in my qualification and my qualities will be assets.

WORK EXPERIENCE

MERN Full Stack Training

Ducat India, Noida

Nov 2022 - June 2023

- Connecting the front-end React application with the back-end API.
- Real-time features with WebSockets and Socket.io.
- User authentication flow: Sign up, login, and logout functionality.
- Data validation and error handling on client-side and server-side.
- Managing HTTP requests and responses between the front-end and back-end.

Front-end Development

- React.js fundamentals: Components, props, state, and lifecycle methods.
- Managing state and stateful components.
- React Router: Implementing client-side routing for single-page applications (SPAs).
- Integrating with third-party APIs to fetch data.

Back-end Development

- Introduction to Node.js and Express.js: Building a basic RESTful API.
- Working with MongoDB: CRUD operations and data modeling.
- User authentication and authorization using JSON Web Tokens (JWT).
- Handling errors and middleware in Express.js.

PROJECT DETAILS

Student Mall (eCommerce websites) -- MERN

Links: - <https://studentmall.onrender.com>

Summary: -

- User authentication flow: Sign up, login, and logout functionality.
- React Router: Navigating between different pages and implementing dynamic routing.
- Detailed product pages with product descriptions, specifications, images, and customer reviews.
- Real-time inventory tracking to prevent overselling and stockouts.
- User authentication and authorization using JSON Web Tokens (JWT).
- Connecting the front-end React application with the back-end API
- Integrating the Razorpay payment gateway to facilitate online transactions
